Python | SAP ABAP | Docker | C# | .NET | Machine Learning

Passau, Germany · +49 176 7502 8878 · [Email](#) · [GitHub](#) · [LinkedIn](#) · [Website](#)

✓ EU-based (Passau, Germany), residing with Job Seeker Visa following MSc completion at Deggendorf

PROFESSIONAL SUMMARY

Software Developer with hands on experience in cybersecurity and protocol fuzzing research, SAP ABAP enterprise development, and automation pipelines, now expanding into LLM based fuzzing and AI driven software testing. Designed automated fuzzing pipelines using Python, Docker, and Conda to evaluate the robustness of deep learning libraries as an MSc thesis project. Strong background in data preprocessing and ML model evaluation from a prior NLP/sentiment-analysis thesis (84% accuracy). Currently based in Passau, Germany. MSc Applied Computer Science, Deggendorf Institute of Technology, expected Jan 2026. BSc (Hons) Computer Science, Uva Wellassa University, 2022.

TECHNICAL SKILLS

SAP SAP ABAP, SAP GUI, Debugging, Reports, Enhancements

Core ABAP, Python, Java, C, C#, C++

Web React, Next.js, REST APIs

Databases MySQL, PostgreSQL, MongoDB

Cloud/DevOps Docker, CI/CD, Git, Jira

Architecture Agile/Scrum, OOP, Clean Code, REST APIs

Security Protocol Fuzzing, Wireshark, Network Traffic Analysis

Operating Systems Linux, Windows

AI Tools ChatGPT, Copilot, Claude, Claude Code CLI, Gemini

PROFESSIONAL EXPERIENCE

Working Student · Deggendorf Institute of Technology · Germany

May 2024 – Nov 2025

- Contributed to cybersecurity and protocol fuzzing research projects.
- Improved Python-based scripts and maintained version-controlled repositories.
- Monitored network traffic using Wireshark for analysis and debugging.

Management Trainee (SAP ABAP) · Michelin Business Services Lanka (Pvt) Ltd · Sri Lanka

Jan 2023 – Sep 2023

- Developed and supported SAP ABAP programs to enhance business workflows.
- Assisted in debugging and optimising ABAP code.
- Collaborated with cross-functional teams to translate business needs into SAP solutions.
- Built workflow automation solutions integrated with SharePoint.
- Worked in Agile/Scrum environments for efficient delivery.

Software Engineer Intern · Creative Software · Sri Lanka

Apr 2022 – Sep 2022

- Developed and tested applications ensuring reliability.
- Built a .NET-based web application using C#, Docker, and PostgreSQL.
- Participated in Agile development processes and code reviews.

LLM FUZZING PROJECT — MSC THESIS

Comparing LLM Based Fuzzing Techniques for Software System Robustness

Deggendorf Institute of Technology · Python · Docker · Conda

- Conducted a comparative study of fuzzing frameworks on deep learning libraries.
- Designed automated fuzzing pipelines using Python, Docker, and Conda.
- Evaluated system robustness using crash analysis and code coverage.

OTHER PROJECTS

SAP ABAP Mini Project

Developed basic ABAP reports using Open SQL, internal tables, and selection screens.

City Guide Application

Full-stack web app using React, Next.js, and MongoDB.

Traffic Sign Detection

YOLO-based object detection project with model tuning.

EDUCATION

MSc Applied Computer Science · Deggendorf Institute of Technology, Germany · Mar 2026

BSc (Hons) Computer Science and Technology · Uva Wellassa University, Sri Lanka · Jan 2022

Diploma in Information Technology · ESOF Metro College · Jan 2017

LANGUAGES

Tamil (Native) · English (C2) · German (B1)
